

Featured Products for Stress Adaptation

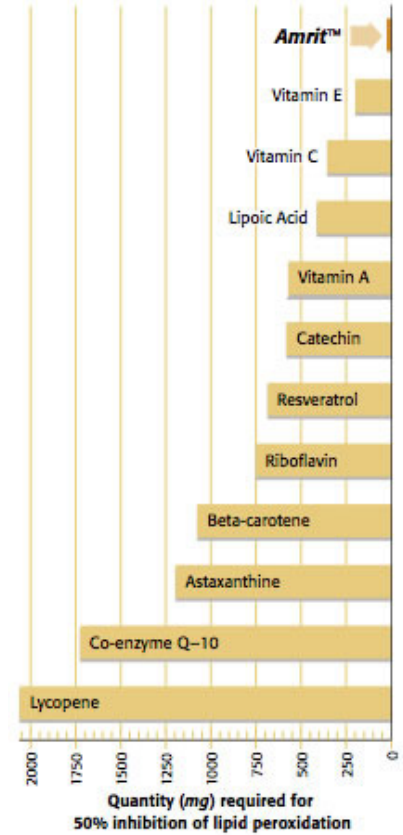

Herbals

MAPI Amrit Kalash® (2-Part Formulation)

Benefits: At least fifteen published studies indicate that Amrit Kalash Nectar paste and Ambrosia tablets offer wide-spectrum antioxidant and other adaptogenic effects, related to:

- antiaging
- cancer
- chemotherapy toxicity
- cardiovascular health
- immunity

MAPI Blissful Joy®

Benefits: An elegant, safe combination of herbs that calms and evens out the mood without interfering with other medications. Helps restore normal sleep in some patients.

SVA Triphala for High Pitta

Benefits: A special formulation of an ancient three-herb synergistic combination. It promotes healthy circulation, includes capillary-supporting flavonoids, and works as a cardio tonic.

Pure Encapsulations® Ashwagandha

Benefits: Ashwagandha's adaptogenic properties provide multifunctional support for promoting general mental and physical wellness, including support for occasional stress, joints, memory, immune function, and healthy lipid and glucose metabolism.

Ortho Molecular Product Adaptin-All

Benefits: Contains a unique blend of nutrients, herbs, and adaptogens for adrenal support. Ortho Molecular includes the ashwagandha, in an extract form, to a comprehensive blend of herbal adrenal tonics.

Metagenics® Serenagen®

Benefits: Classic herbal stress management formula used in traditional Chinese medicine for individuals who have feelings of anxiety and disorientation and have difficulty resting due to stress. Provides traditionally used herbs to address organs and systems involved in the stress response.
