

Featured Products for Digestion

Herbals

SVA Triphala for High Pitta

Benefits: A special formulation of an ancient three-herb synergistic combination. For most people, triphala is a mild laxative, and for that reason it is excellent for clearing toxins from the digestive system. In very rare cases, it has a stronger laxative effect, but usually it is an ideal bowel cleanser precisely because of its mildness. In moderate doses it is gentle, and detoxifies the body slowly.

Enzymatic Therapy® DGL

Benefits: DGL stands for de-glycyrrhizinated licorice, which is proven to support a healthy digestive system. It is especially beneficial to provide soothing relief of the stomach lining and intestinal tract. DGL stimulates and accelerates the natural protective juices in the digestive tract to help relieve occasional stomach discomfort immediately.

SVA Mum's Super Spice mix

Benefits: A combination of tasty medicinal spices that can be sprinkled on food or used in cooking. Balances digestion and improves absorption of nutrients.

SVA Soma Salt

Benefits: Healthy magnesium- and calcium-rich natural salt that replaces lost electrolytes and supports the adrenal glands, without causing excess thirst or fluid shifts or elevation of blood pressure like regular salt.

SVA Mum's Ghee:

Benefits: Healthy cooking oil, containing good fats to help rebuild and repair the digestive tract, brain, and nerve tissues.

SVA Tripti-Tea™

Benefits: Helps improve blood sugar levels and reduces sugar and other cravings.

Nutraceuticals

Designs for Health® PaleoCleanse™

Benefits: Tasty smoothie mix that aids your body in detoxification of metabolic wastes, heavy metal accumulation, and environmental xenoestrogens, such as PCBs, herbicides, bromines, plastics, and birth control pills.

Metagenics® Zinlori 75™

Benefits: Contains a high potency, zinc-carnosine complex formulated to provide relief of stomach discomfort, particularly in GERD. Zinc-carnosine works by supporting the healthy ecology, natural defenses, and integrity of the stomach lining.

Nutraceuticals (continued)

Innate Response Formulas® Digestive Enzymes Clinical Strength

Benefits: The enzymes in Digestive Enzymes Clinical Strength have been studied for their digestive capabilities and survival throughout the gastrointestinal tract, thereby ensuring that you get the digestive support you need. Formulated and studied as the perfect digestive aid even for individuals with compromised digestion, this formula provides a broad range of proteolytic, lipolytic, and carbohydrolytic enzymes specifically designed to provide digestive support where it is needed most.

Probiotics

Metagenics® UltraFlora™ Acute Care

Benefits: Features *S. boulardii*, *B. lactis* HN019, and *L. rhamnosus* HN001 to support a healthy intestinal microbial balance and provide targeted relief for acute bowel distress, including occasional loose stools.

Metagenics® UltraFlora™ Balance

Benefits: Provides a dairy-free base for a proprietary blend of highly viable, pure strains of *L. acidophilus* NCFM® and *B. lactis* Bi-07—“friendly” bacteria shown to support a healthy intestinal environment and immune health. Facilitates the digestion of lactose.

Metagenics® UltraFlora™ IB

Benefits: Provides a dairy-free base for an enhanced potency blend of highly viable, pure strains of *L. acidophilus* NCFM® and *B. lactis* Bi-07. NCFM has been shown clinically to address bothersome gastrointestinal symptoms such as abdominal discomfort, bloating, cramping, and urgency.

Pure Encapsulations® FOS

Benefits: A probiotic enhancing combination of the non-digestible carbohydrates l-ketose GF2, nystose GF3, and fructofuransylnystose, which helps maintain an intestinal environment hospitable to beneficial microflora. FOS supports natural intestinal mechanical barriers, promoting gut integrity.

“The intestinal bacterial flora of patients with inflammatory bowel disease has been shown to be markedly abnormal...”
